Assignment Published, Draft, and Expired:

- After adding the assignment, it will remain as a draft. If the assignments are in draft form, those will not reach the students.
- You must publish the assignments to publish assignment to the students and add your questions before publishing.

- If you have published the assignments, students will be able to view the assignments on their portal.

The screenshot displays an assignment management interface. At the top, there are three tabs: 'Published assignments' (active), 'Draft assignments', and 'Expired assignments'. Below the tabs are three dropdown menus for filtering: 'Select a class', 'First select a class', and 'First select a class', followed by a blue 'Filter' button. On the left, there is a 'Show 10 entries' dropdown. The main area contains a table with the following columns: Title, Class, Subject, Deadline, and Submissions. The first row of the table shows an assignment titled 'Chapter 3: Structure of atoms -2' for 'Class : Class One Section : A' in the subject of 'Physics', with a deadline of '24 Jan 2026' and a status of 'Drafted'. A context menu is open over the first row, listing actions: 'Publish assignment' (highlighted with a red box), 'Questions', 'Submissions', 'Edit', and 'Delete'.
