ID Card Addon

Ekattor School Management System
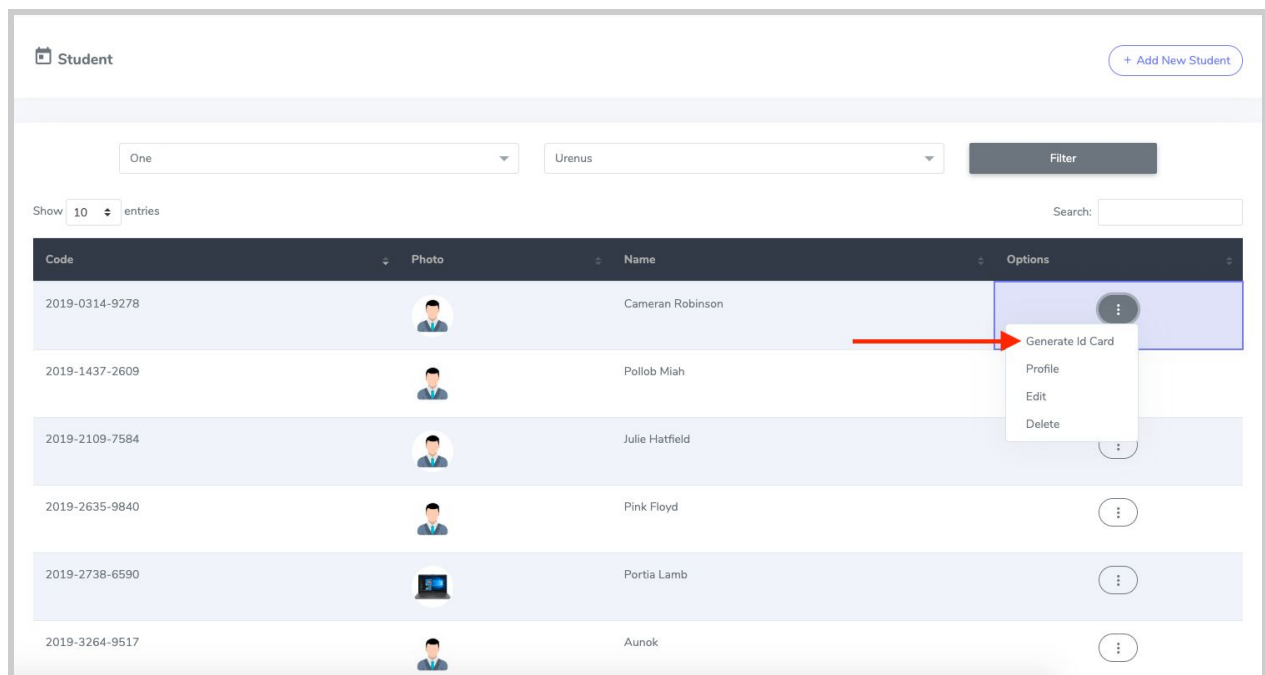

Usage Guide

Usage Guide:

It looks like you have installed the ID Card addon successfully and you are here to know how this addon works. Well, as the name says this addon generates Id cards of students.

You might notice after installing this addon, a sub menu item has been created inside Student list page's menu item. If you haven't don't worry, we've attached a screenshot below. It will help you to get a visual representation.

If you click on Generate Id Card menu item, a view will be popped up with the ID card. You print the id card from here.
